PERFORMANCE MEASURE REVIEWS Three Major Stages

RCW 44.75.070 outlines what is to be included in the performance review process: the detailed bulleted points below come from that section. The number following the bullet references their order in the section.

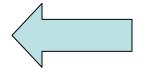

Determine if measures are grounded in policy

• Determine if measures are consistent with legislative mandates, strategic plans, mission statements, goals and objectives (1)

Review how performance information is used by policy makers

- Determine if Legislature established clear mandates, strategic plans, mission statements, and goals and objectives that lend themselves to performance and outcome measures. (1)
- Review how performance is reported to and used by Legislature in policy development and resource allocation. (6)
- Determine whether targeted funding and established priorities of government actually produce the intended and expected services and benefits. (8)

Assess how measures are incorporated into the operations of the agency

- Examine how management uses measures to manage efficiently and effectively. (2)
- Assess how benchmarks are used and compared to external benchmarks. (3)
- Examine how performance data is used in planning and operational improvements. (4)
- Determine how measures are used in budgeting and comply with Budget and Accounting Act. (5)
- Assess whether performance data are reliable and collected in a uniform and timely manner. (7)
